Best Practical Tips for CSS & PMS Preparation

> CSS Aspirant should restrain his senses like the crane and accomplish his purpose with due knowledge of his place, time and ability.
> Study when you are at your peak when you are more awake and alert and able to absorb new information. If you are a morning person, your best study time is in the morning. If you are an evening person, study at night.
> Focus is the only strategy for CSS Aspirants, You must have clarity of thought and the ability to stay focused on your studies.
> When you take a break make sure you are away from your study desk.As working continuously on the same task can decrease your efficiency. So, just walk around or explore the weather, it's up to you.
> Take a good sleep on the eve of examination. It is most important for your brilliant performance.
> Always rely on yourself prepared notes. Go through your short notes rigorously.
> Underline impotent ideas or write them on a rough page
> Always rely on revisions.
> It is advisable not to go through a lot of books, instead go through one quality book on each topic which clarifies your basic concept.
> Get yourself well informed about the content of the syllabi and the topics it covers.
> There are several CSS academies, yet to find the best one could be the toughest task you may face.
> Believe in yourself and keep your confidence level high, take help of the CSS academies only in the areas you need them.

> An important thing to remember is that for this exam it is not just enough to remember information but to understand the concepts as well.

> Many candidates make the mistake of overloading themselves with lots of information and end up remembering nothing. One should be able to differentiate between relevant and irrelevant information.

> Reading from too many books will do more harm than good.

> Make notes from the very beginning as soon as you have done my studying when the material is fresh in mind.

> A common mistake many students make during this crucial period is to eat poorly and unhealthily. Junk food, lots of chocolate, energy drinks and crisps are often eaten in place of normal meals to "keep energy levels up". However, this is not only harmful to your long-term health but can also negatively affect your exam performance.

> As a final tip, remember that being well hydrated is essential for your brain to work at its best. Make sure you keep drinking plenty of water throughout your revision, and also on the exam day.

> Dawn newspaper is very essential during CSS preparation.
